Extend your high-speed USB cable personal area network by up to 80 feet *(Special offer to registered customers)*

Access Your PC and Transfer Your Files from Virtually Anywhere

LapLink Gold 11 is the latest release of our award-winning, robust all-in-one communication solution. It gives you the ease of quick access to a desktop PC to tap into all of your network resources. Access files, synchronize data between PCs, run database applications, operate, maintain and even reboot PCs or servers – you can do it all remotely with this single application!

Whether you're a mobile professional or an office-based IT professional, LapLink Gold 11 offers you the flexibility to work the way that best fits your needs.

Our latest release continues to raise the standard for PC-to-PC connectivity including enhanced Internet functionality; ultra-fast, always safe file transfers; security levels you control and convenient compatibility with any Windows PC including Microsoft's newest operating system, Windows™ XP. It will give you a level of mobility, independence and control you may have never thought possible.

LapLink Gold 11 Highlights

Full Spectrum Windows Compatibility

Effortlessly work across varied Windows environments with support for Windows 95, 98, NT 4.0, 2000, Me, and XP.

Take Advantage of the World's Largest Network

LapLink Gold 11 ensures an easy, safe and reliable way to connect to your office or other remote computers to run any desktop application. Connection options include the Internet, TCP/IP or IPX networks, Dial-up Networking, LapLink high-speed USB cables, LapLink serial cables, modems and LapLink parallel (Win 95/98/Me only).

Security to Safeguard Your Data

Control access to your PC's drives and folders with Folder-Level Security. Protect your data during transmissions with Multi-Level Encryption (including Microsoft's CryptoAPI support). Thwart repeated attempts to guess your password with Case-Sensitive Passwords and Lockout Protection. Use our Address Book to build an Access Control List for those with permission to access your PC.

Use the Included Cables to Create a Personal Area Network

You'll find two cables already inside the box! Try the LapLink serial cable for file transfer speeds up to 0.4 Mbps between Windows XP, Me, 2000, 98, 95, and NT 4.0 PCs. And rely on the LapLink parallel cable for transfer speeds up to 0.7 Mbps for Windows Me, 98, and 95 PCs. Use our optional high-speed LapLink USB Network cable for fast file transfers — up to 5 Mbps — between Windows XP, Me, 2000, and 98 PCs.

"The bottom line: LapLink offers terrific file transfer and remote-control features. It can't be surpassed when it comes to reliability and ease of configuration and use."

-InfoWorld Test Center

What your IT department can do with LapLink Gold's Remote Control features

- Administer and even reboot remote servers across a network or over the Internet
- Streamline support by taking over and operating a remote PC
- Use the remote control connection for simultaneous voice or text messaging while helping users
- Access network-based applications and databases from anywhere

Includes PowerQuest's Drive Image Lite cloning software that enables users to backup and recover their critical hard drive data quickly, easily and safely.

LAPLINK

LapLink Gold 11 communicates with LapLink Gold Host, the perfect remote support tool for end-users, to provide remote systems administrators' user support, repairs and training. For more information on LapLink Gold Host volume licenses, visit www.laplink.com/vla

LAPLINK

The Standard in Remote Control and File Transfer

GOLD 11

Speedy File Transfers and Updates

Enjoy lightning-fast transfers of any file type with our patented SpeedSync™ technology that transmits just the updated portion of files. Boost your productivity: Schedule automatic, unattended file transfers and connections to an ISP, and use SmartXchange™ to instantly synchronize multiple folders without complex scripting.

Support Users Without Leaving Your Desk

Effortlessly manage remote users or servers and trim your interoffice, cross-town or cross-country travel with LapLink Gold 11. Use our intuitive remote control capability to operate, maintain, reconfigure and even reboot PCs and servers at a distance. You can even use the same connection for Text or Voice Chat while you're at it.

Conveniently Access Network Resources

Tap into network resources by using a remote control connection to a networked PC. Access all of a PC's local and network drives with a simple file transfer connection. Print items stored on your home PC on your office printer, or vice versa, with two-way print redirection. Use the optional LapLink USB Network cable to access network resources when connected to a networked PC without a network interface card.

"We are committed to producing quality products that meet and exceed your expectations. If you are as excited about this product as I am, please tell your friends. Thanks to your recommendations, we keep producing better products and gaining new customers."
