

The Fast and Easy Utility for File Transfer and Migration

PCsync is the ultimate file management utility. It's a must-have whenever you buy a new computer or want to connect multiple computers. PCsync makes it easy to migrate settings, transfer files, synchronize folders, manage your MP3 files and playlists, share files and even play multi-player games with another PC.

Migrate

Transfer your files and your computer's personality to a new PC.

Synchronize

Synchronize your files and folders between two computers via serial or optional USB cable, LAN or the Internet.

Transfer

Share any and all file types in seconds with another PC user. Share digital images, MP3s, video, etc.

LapLink
Serial Cable**

Special USB Cable Offer!

Buy a LapLink USB cable for
only \$19.95 when you register.

100% Satisfaction Guaranteed
30-day, 100-percent money-back guarantee

PCSYNC

The Fast & Easy Utility for File Transfer & Migration

Version 3.0

What's New in PCsync 3.0?

- Windows XP compatibility
- Improved Surf Up - Remotely send and access documents on your PC from any Internet browser, via Surf Up
- Push Install - Install PCsync 3.0 directly to your second computer using the included serial cable
- PCMover™ has expanded to now transfer over 45 application settings to your new computer!

Migrate your computer's personality to a new computer with PCMover.

PCsync's PCMover makes moving all of your personalized network and application settings, any file type and entire directories easy! Transfer your e-mail, your favorite Internet browser bookmarks and logins, your contact listings, your files and much, much more! Now you can migrate your computer's personality so you don't have to waste time recreating it all on your new computer. Your computer personality moves with you when you use PCMover.

Transfer and Share Files – including digital photos, genealogy files or even video in seconds.

With PCsync's file transfer you can now share any file type with your family and friends. Simply establish the connection with another PCsync user and begin sharing via the Internet or via the serial cable that is included. You can also transfer via LapLink's USB cable, which can be purchased separately for \$19.95. The award winning user interface makes file transfer a snap!

Access documents on your home computer with Surf Up even from 1500 miles away.

Our unique Surf Up feature allows you to access your computer's PCsync shared folder from a remote browser anytime, anywhere[†]. Connect to your shared folder using Surf Up and retrieve important files, documents or MP3s quickly and easily.

Organize, manage & share your MP3 files & playlists with MusicMover™.

PCsync's MusicMover™ is the ultimate MP3 playlist manager and MP3 files transfer utility. You can use it to organize all your music files, then transfer your playlists and the files themselves to another computer. MusicMover gives you quick access to the music you want, the way you want it, where you want it.

[†] Surf Up supports IE 4.0, Netscape 6.0, and later versions

PCMover™

Easily transfer your personal settings and files from any of these applications to your new PC!
